STC SA4843SW FALCON 10 AIR CONDITIONING UPGRADE KITS

Kit SZ59-000 upgrades the Dassault Original Equipment R-12 Compressor and Drive Pulleys. Our positive traction belt reduces bearing side load on both the compressor and drive motor. Proper pulley ratios decrease electrical load and helps to increase the life of the very expensive Auxilec 1189 Drive Motor. Also, Dassault no longer supports its R-12 compressor. Easy Compressor and Pulley replacement. Negligible weight and balance effect. All parts are Part 21 FAA-PMA. **Kit SZ59K-R134-1B** R-134a Upgrade Kit includes a new R-134a Compressor AND two Flex Lines AND Receiver Dryer. We now have FAA-PMA on replacement for the 1189 Compressor Drive Motor. (1-10)
